

SPARC COMPACT RED DOT SCOPE

| SPEED POINT AIMING FOR RAPID COMBAT

Compact and lightweight, with a one-piece body machined from aircraft grade 6061-T aluminum, the 1x magnification SPARC is equally at home mounted on an AR15 or on a tactical shotgun. Features a daylight bright, adjustable 2 MOA red dot powered by a long-lasting CR2354 lithium battery. O-ring sealed construction is waterproof, nitrogen purged and submersible. Comes with a 2x doubler, multi-height mount system, hex wrench and two batteries. Optional accessories include Anti Reflection Device and VMX3 magnifier.

COMPLETELY
**NEW
FOR 2010**

*Patent pending

Includes versatile multi-height mount system.

KEY FEATURES

- Fully multi-coated optics.
- Waterproof and shockproof – nitrogen purged.
- Compact, lightweight, one-piece body.
- Tested with .375 H&H Magnum for 1,000 rounds.
- Daylight bright 2 MOA red dot.
- Parallax free past 50 yards.
- Unlimited eye relief for fast target acquisition.
- Comes with optical 2x doubler.
- Threaded to accept ARD.
- Limited lifetime warranty.

HIGH OR LOW MOUNTS

The versatile multi-height mount system accommodates most firearms including AR15s needing absolute or lower 1/3 co-witness heights. Use standard Weaver or Picatinny base (not included).
